OUR ORGANISATION	
<p>The Transforming Autism Project is a brand-new charity focusing on very early intervention for children with autism. Our goal is to truly transform lives through our life-changing Mifne Treatment Centre (details <a href="#">here</a>) and our unique online Hub of comprehensive guidance, support, education and community for parents of autistic children. We also challenge conventional perceptions of autism and offer our own radical and empowering perspective. This can be seen in our <a href="#">TED talk</a>, which has now been viewed by well over 80,000 people.</p> <p>To find out more about our goals, values and activities, please view <a href="#">our brochure</a>.</p> <p>We are currently at a very early stage in our development, but are looking to make fast progress to make our projects viable and help as many families as soon as we can. To that end, we are looking to create a team of capable and dedicated volunteers to ensure our success.</p>	
ROLE PURPOSE	
<p>Technology underpins the success of our charity, from responding to the IT issues of our small but growing team, to scoping and defining the technology platform for our ambitious Hub project and everything in between.</p> <p>We actually have some of the basics in place (for example a system to respond to IT requests), but not other parts. We have a couple of volunteers who are currently keeping things going, but what we really need now is someone with the vision and drive to expand this into a coherent and evolving infrastructure.</p> <p>Please note – All Lead roles will initially be appointed as Assistant Leads for an initial period.</p>	
PERSON SPECIFICATION	
<p>You will be passionate about the changes we are trying to make and their impact in the world of autistic children.</p>	

You will be a natural at making things happen and feel excited and energised at the prospect of driving them forward. You will possess the confidence, positivity and determination to achieve your goals.
