To apply for this role, please send a CV to jobs@transformingautism.org along with a cover letter highlighting why you would like to join us, and any connection to autism you may have

ROLE PROFILE	
Role Title	Web Developer
Location	Home-Based
Commitment Required	To be discussed at interview
Report To	Initially to the CEO
OUR ORGANISATION	

The Transforming Autism Project is a brand-new charity focusing on very early intervention for children with autism. Our goal is to truly transform lives through our life-changing Mifne Treatment Centre (details here) and our unique online Hub of comprehensive guidance, support, education and community for parents of autistic children. We also challenge conventional perceptions of autism and offer our own radical and empowering perspective. This can be seen in our TED talk, which has now been viewed by well over 80,000 people.

To find out more about our goals, values and activities, please view our brochure.

We are currently at a very early stage in our development, but are looking to make fast progress to make our projects viable and help as many families as soon as we can. To that end, we are looking to create a team of capable and dedicated volunteers to ensure our success.

ROLE PURPOSE & RESPONSIBILITIES

We are a new charity, but already have a wealth of material that is of great value to parents of autistic children, and we plan to add much more.

Our website is currently a very basic Wordpress design (although we do have a great theme), and it is not very easy for visitors to locate what they need or to optimally browse what is there.

We need a great, stunning new design which also focusses on great organisation and navigability of the site.

Your job as a web developer will be to propose and then implement a wholly new design and structure of the site.

In parallel, you will manage content updates and explore with us further ways of optimising what we already have.

We also need help in managing plugins, selecting extensions and the general management of the site. This is not envisaged to be very extensive, as the site is still relatively small and static.

PERSON SPECIFICATION

You will have a really good understanding of how to make a compelling, easily accessible and very well-organised and easily navigable website that looks stunning and keeps people engaged. You will have created such sites in the past. You should also be able to follow technical best practice and ensure optimal manageability of the site in future.

We are a strongly values-driven organisation, and are committed to manifesting our values in how we relate to each other, in what we are trying to achieve and in how we do it. Our values come under 3 core headings:

Unconditional Respect	**Courage**	**Purpose**
•Kindness •Trust-based Collaboration •Responsivity	•Pioneering Big Thinking •Ambition •Perspectives, Not Positions	•Positive Approach •Ownership •Continuous Learning & Improvement

To find out more about our values, please see our brochure or visit
https://transformingautism.org/purpose/ to read more and to watch a video by our founder explaining them.

The Transforming Autism Project value diversity and we're committed to creating an inclusive culture where everyone is able to be themselves and to reach their full potential.

To apply, please e-mail a copy of your CV to jobs@transformingautism.org
