

ROLE PROFILE	
Role Title	IT Manager (Azure Specialist)
Location	Remote
Commitment	Approx. 2-5 hours/week
Report To	CEO
About Us	
<p>We're a startup charity offering a unique and empowering concept of Autism. We actively support autistic children and their families in person and online through our Family Services and First Steps Programme; creating a powerful partnership to unlocking the child's potential.</p> <p>Our IT infrastructure is vital in providing that support and connection to the families who need our services and our growing team of passionate volunteers.</p>	
The Role	
<p>As IT Manager you'll be supporting our team of around 40 awesome volunteers.</p> <p>How will you contribute to the Transforming Autism Project?</p> <ul style="list-style-type: none"> • Responsible for the planning, administration, availability, upgrades, optimisation, security and maintenance of the Charity's cloud-based IT systems (primarily MS Azure) • Supporting the access and usage requirements of all the Charity's trustees, staff and volunteers (stakeholders) • Reacting to requests for IT support, allowing the Charity's primary function to operate efficiently • Providing technical guidance to stakeholders, pitched at the level of the individual stakeholder's IT skills and experience • Delivering continuous improvement to the IT environment in terms of cost, efficiency, utilisation and automation 	
About You	
<p>This opportunity would suit an IT professional who is happy to act as the focal point for IT within the Charity. You'll need to be a hands-on self starter, motivated by delivering benefits to the charity, it's volunteers and users through IT solutions.</p> <ul style="list-style-type: none"> • Extensive experience with the administration of MS Azure, ideally supported by recognised certifications • Comfortable with standard business software packages (e.g., MS Office 365) • Understands the fundamentals of IT security and GDPR 	

The successful candidate will be strongly aligned with the values and the approach of the charity, and passionate about the changes we are trying to make in the lives of autistic children. They will ideally also take part in some of our team activities with our community of volunteers on a voluntary basis.

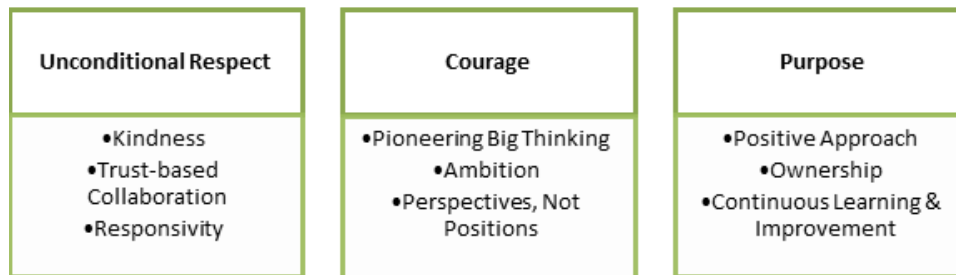

OUR ORGANIZATION

The Transforming Autism Project is a new charity focusing on early intervention for young autistic children. Our goal is to truly transform lives through the home-based family services available to families with young autistic children.

We also challenge conventional perceptions of autism and offer our own radical and empowering perspective. This can be seen in our [TED talk](#), which has now been viewed by well over 200,000 people and received great acclaim from the autistic community.

What is distinctive about our approach is that it focuses on facilitating a strong trusting relationship between child and their parents/primary caregivers, as primary means of reducing anxiety and enhancing the child's sense of security to enable them to realise their full potential.

We are a strongly values-driven organisation, and are committed to manifesting our values in how we relate to each other, in what we are trying to achieve and in how we do it. Our values come under 3 core headings:

Please visit <https://transformingautism.org/purpose/> to read more and to watch a video by our founder.

The Transforming Autism Project (TAP) is currently launching the Support programme aimed at young autistic children and their parents/primary caregivers. The Support programme is jointly implemented by a team of child psychotherapists and paediatric occupational therapists alongside support from Norland College.

The Transforming Autism Project value diversity and we're committed to creating an inclusive culture where everyone is able to be themselves and to reach their full potential.

For more information or to apply, please e-mail a copy of your CV to jobs@transformingautism.org. We aim to respond to your email within 5-10 days.
